

PARTNERSHIP STATUS WITH ENTERASYS NETWORKS

October, 2 2009, Dubai

The Network Infrastructure and Security Division of Siemens Enterprise Communications Group - Enterasys Networks appoints ROOSIS Middle East as its partner in the Middle East region.

In connection with this we are pleased to offer full portfolio of wired/wireless enterprise networking components for voice, video and data from single vendor. SIEMENS ENTERASYS offer unique combination of such important factors as high performance, unique end-to-end security concept, lifetime warranty and attractive prices.

About Siemens Enterprise Communications Group:

Siemens Enterprise Communications Group is a strategic partnership of Siemens Enterprise Communications and Enterasys Networks. The new company is designed to accelerate growth, consolidate voice/video/data communications, and foster a customer-centric culture by leveraging our great people, innovative products, proven best practices, and global presence. This multi-billion dollar provider of hardware, software, and services delivers unified voice, video, and data communications that are open, mobile, and secure. More than 14,000 employees in 80 countries carry on the tradition of voice and data excellence started more than 160 years ago with Werner von Siemens and the invention of the pointer telegraph. Today the company leads the market with its "Open Communications" approach that enables teams working within any IT infrastructure to improve productivity through a unified collaboration experience.
